## Got Plans? Live Discussion with the washingtonpost.com' Going Out Gurus

Tanning: Hi, it's Kristen from Express. For our Going Green Guide this week, I went and had an all-natural spray tan (made of beet juice, brown sugar and water), applied via spray gun (I'm sure there's a more technical term than that) at Derma Hair Care in Falls Church. It's \$30 for partial body, \$55 for total body. It only lasted four or five days, but it looked fabulous.

Janet: For the person in search of something between Mystic Tan and Elizabeth Arden, Derma Hair Care sounds just the thing. Thank you, Kristen!!
